

PABODHA DEVINDI

PROFESSIONAL PROFILE

Passionate and motivated Information Technology undergraduate at Sri Lanka Institute of Information Technology (SLIIT) with hands-on experience in UI/UX Design, Front-End Development, Mobile Application Development, and Artificial Intelligence-based software solutions. Experienced in designing and developing user-centered digital products using Angular, Figma, Kotlin, React, and modern web technologies.

Completed a professional internship at Sri Lanka Customs ICT Branch, contributing to the development of the Online Appeal Management System through UI/UX design, front-end development, requirement analysis, testing, and documentation. Additionally, involved in the design and implementation of a multimodal AI-powered healthcare decision support system as a Final Year Research Project, utilizing Deep Learning, Computer Vision, Natural Language Processing, and Machine Learning technologies.

Strong problem-solving, teamwork, and communication skills with a passion for creating intuitive user experiences and innovative software solutions. Seeking opportunities in UI/UX Design, Front-End Development, Mobile Application Development, or Software Engineering to further enhance technical expertise while contributing to impactful projects.

WORK EXPERIENCE

Web Development Intern

Sri Lanka Customs – ICT Branch | 2024

- Contributed to the development of the Online Appeal Management System for the Appeals Branch of Sri Lanka Customs.
- Collaborated with business stakeholders to gather requirements and document system workflows.
- Designed user interfaces and user experiences using Figma.
- Developed responsive front-end components using Angular.
- Implemented appeal submission forms, dashboards, profile management modules, and tracking interfaces.
- Conducted testing, debugging, and UI optimization activities.
- Utilized GitHub for version control and collaborative software development.
- Participated in Agile development practices including stand-up meetings, task tracking, and code reviews.

EDUCATIONAL QUALIFICATIONS

Bachelor of Science (Honours) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)
2022 – 2026

G.C.E. Advanced Level Examination – 2022

Physical Science Stream

- Combined Mathematics – S
- Chemistry – S
- Physics – S

G.C.E. Ordinary Level Examination – 2018

Successfully completed with:

- 2 A Passes
- 3 B Passes
- 4 C Passes

PERSONAL INFORMATION

Date of Birth : 11 Agust 2002

Gender : Female

Nationality : Sri Lankan

Civil Status : Single

LANGUAGES

- Sinhala: Fluent
- English: Intermediate

SOFT SKILLS

- Team Collaboration
- Leadership
- Problem Solving
- Communication Skills
- Time Management
- Adaptability
- Presentation Skills
- Critical Thinking

TECHNICAL SKILLS

Programming Languages

- Java
- Python
- JavaScript
- TypeScript
- Kotlin
- PHP
- SQL

Frontend Development

- Angular
- React.js
- HTML5
- CSS3
- Bootstrap

Mobile Development

- Android Studio
- Kotlin

UI/UX Design

- Figma
- Wireframing
- Prototyping
- User Flow Design
- User Interface Design

Database Technologies

- MySQL
- MongoDB

Tools & Platforms

- Git
- GitHub
- VS Code
- Postman
- Microsoft Office Suite

Artificial Intelligence & Emerging Technologies

- Machine Learning
- Deep Learning
- Computer Vision
- Natural Language Processing (NLP)

REFEREES

RESEARCH EXPERIENCE

Multimodal AI Framework for Personalized and Culturally-Aware Skin Disease Diagnosis, Monitoring and Treatment Support

- Designed and developed an AI-powered healthcare decision support system.
- Implemented image classification models using Deep Learning and Computer Vision techniques.
- Applied Natural Language Processing (NLP) for symptom analysis and contextual understanding.
- Developed multimodal data fusion mechanisms combining image and textual information.
- Utilized Python, PyTorch, Machine Learning, Deep Learning, and AI technologies.
- Conducted model evaluation, comparative analysis, and performance optimization.
- Focused on improving diagnostic accuracy and personalized treatment recommendations.

PROJECTS

Online Pet Clinic Management System (MERN Stack)

- Developed patient management functionalities for a real-world client project using MongoDB, Express.js, React, and Node.js.

Online Medicine Ordering System

- Developed patient registration and feedback management modules using Java-based technologies.

Online Book Store

- Developed sign-up, dashboard, offer management, and information modules using HTML, CSS, JavaScript, and PHP.

Meditation Mobile Application

- Designed complete UI/UX interfaces using Figma.

Soft Drink Ordering Mobile Application

- Designed complete UI/UX interfaces using Figma.

Note Application

- Developed Android application using Kotlin and Android Studio.

Gaming Application

- Developed Android application using Kotlin and Android Studio.
